

Tuesday 9th July

Invitation to Tender for a construction contract in respect of the conversion works of the former Bingley Public Toilets.

Background

Bradford Council closed the Bingley public toilets at the end of March 2018, and has invited Bingley Town Council to take over the running of the toilets by way of a Community Asset Transfer (CAT). This transfers responsibility for the building to Bingley Town Council on a long-lease with a peppercorn rent. In Bingley's case, the lease will be 99 years.

Following some initial planning with an architect and a public consultation, Bingley Town Council appointed a project manager, and now wishes to invite tenders for the conversion of the public toilets in Bingley to create an office space for the Town Council and two self-contained toilets. The work is offered under a JCT Minor Works Building Contract with Contractor's Design 2016 Edition.

The Town Clerk will be the individual with overall responsibility for the project and she will work closely with the project manager delivering the project (Daniel Green of Bowman Riley). The Town Council has appointed a project team to monitor the works.

Once the toilets are operational, the Town Council will manage and maintain the toilets and will occupy the office and will employ a cleaner to clean the toilets on a daily basis.

The appointment of the contractor is dependent on the town council being granted borrowing approval by the Secretary of State and the subsequent granting of the loan for the works from the Public Works Loan Board.
