2122/49 Public participation

- Questions/observations from members of the public:
 1. A member of the public whose father lives in the area attended to give his views on Bingley Pool. He reported that he was leader of Lancaster City Council where the community pools faced closure so had to find a solution to keep swimming pools open, and successfully kept the pool open as a community asset. Acknowledged that the pool building at present is not in a fit state to be asset transferred, and would take too much work and funds to be taken on by a

community group. He suggested that another venue could be sought for a community pool, and that a new pool would be cheaper to run, as the present building costs a lot to heat and maintain. If a new community building was the preferred choice, the Town Council and residents could work with Bradford Council to find a new site for the new pool, and suggested that Section 106 money could be used to build a community swimming pool elsewhere, with the Princess Hall site being developed for another purpose. Suggested that a new pool could be on one of the school sites, which opens up the building to partnership money also. He advised that the Town Council has access to funds that the District Council does not, and that the Friends of Bingley Pool can access different pots of money that Town or District Councils cannot – therefore a partnership approach may work. The Chair expressed thanks to member of public for time and suggestions: Chair to share his original email with all Councillors for their information.

2. A member of the public thanked the Town Council for ratifying item 2122/45 at the last meeting, and confirmed that the deliberations were successful. He spoke against the Special Motion at this meeting which calls for this motion to be put aside as invalid, and disagreed with the reasons for this.
3. A member of the public expressed concerns regarding the mountain bikes on the canal tow-path, and requested cross railings every hundred yards. The Chair asked the member of the public to moderate his language, and asked that the member of the public put their concerns in writing to pass onto the Councillor Gibbons as the Canal and River Trust Liaison, and confirmed that the Town Council will work with the Canal and River Trust to pass on these concerns.

2122/50 Special Motion re previous resolution 2122/45
